Level 4 – Preliminary

This phase tests a competitor's ability to demonstrate correct basics and geometry. The horse should be showing some roundness and acceptance of the bit and aids. In the Dressage phase Working Canter is introduced. Walk on long diagonals; Transitions between markers; Canter-trot-canter transitions; 20m Trot and Canter circles at E & B; 2 loop Serpentine at Trot, Leg-yield at Walk; Reinback. In the Ease of Handling and Speed phases obstacles are performed at trot, with canter between each obstacle. If the horse canters an obstacle in Speed the penalty is +20secs. Exception is the Jump, which may be cantered or trotted. At 3 occurrences the combination will be disqualified. Lead changes in EoH are canter/trot/canter. Ridden predominantly with two hands. The horse must be at least four years of age.

Level 5 – Novice

This level introduces lateral work and has an expectation of greater precision with horizontal balance of the horse. In the Dressage phase Transitions are made *at* markers and are closer together; Extended Walk; ½ 20m trot circles; Canter-walk-canter transitions; Leg yield at trot; 15m Canter circles; Trot and Canter circles at X; Lengthened Trot. In the Ease of Handling phase Canter is required both between the obstacles and in the obstacles except for the Slaloms, which are trotted.
